

Empty storyline template (replace with paper title).
Please follow: <https://jvgemert.github.io/storyline.pdf>.
Each term that is used needs to be introduced/motivated. As a tool: Each first-time use of a term can be colored; a re-used term underlined.
Try to fit to a single page; remove unused words; grammar is optional; change margins or font size if really needed. OK; if 2 pages are needed; so be it, but rather not :).

1. Why interesting?
